MACHINE PLANTING AGREEMENT

Fall River Conservation District

Machine planting costs will be \$.50 per foot this will include tree stock and labor to plant trees. A \$1.20 per mile will be assessed from the tree shed to planting site, round trip.

For plantings less than 1000', there will be a \$100 drop charge.

A deposit of 50% of the estimated total cost of your tree planting and fabric installation is required before stock will be ordered. The remaining bill will be paid in full within 30 days after planting is completed. After that date, a finance charge of 1.5% per month will be added to the remaining balance of the bill.

Order the trees/fabric from the District – **We only plant trees purchased from the District**

Prior to the planting, landowner will till ground well for planting. The ground **must be** broken to a depth of 12-18" by March 31st, 2023, with a minimum of 8' worked between rows. Fall River Conservation District reserves the right to cancel any planting due to poor ground conditions. This will result in forfeiture of deposit.

We recommend watering trees the day of the planting, as soon as possible after they have been heeled in. Having a water plan for the first year is critical for your newly planted trees.

You must be present for one on-site visit with someone from the tree crew and present when the trees are planted. Then, if any questions arise, you will be able to discuss them with the foreman. If possible have at least one person present at the time of tree planting, especially with larger planting; help with heeling trees is appreciated.

The District has no guarantee on survival of the new tree planting; and is further understood that Fall River County Conservation District has no implied warranties of any sort on the merchantability or fitness of the stock.

By signing below, cooperators accept the terms and conditions of this agreement.
**PLEASE HAVE YOUR DEPOSIT AND THIS AGREEMENT BACK BY
December 31, 2022, this will guarantee your order.**
